

Can my NZ-BRED Purebred Gypsy Cob be registered with the New Zealand Gypsy Cob Association?

Complete the following ...

Please tick:	Yes	No	If you ticked no, then ...
Are both parents of your horse registered with NZGCA as purebred Gypsy Cobs?			Until both parents are registered with NZGCA as purebred Gypsy Cobs, your horse cannot be registered with NZGCA. Please discuss this with the owner of the dam and sire of your horse.
Have you DNA verified your horse to both of its NZGCA registered Gypsy Cob parents?			Complete the DNA verification process through InfogeneNZ/Massey University to have your horse parentage verified to its NZGCA registered sire and dam.
Has the sire of your horse met the stallion health certificate and PSSM1/FIS genetic test requirements?			Until the sire of your horse has completed the stallion health certificate and completed PSSM1/FIS testing your horse cannot be registered. Please discuss this with the stallion owner.
Has your horse <u>OR</u> both its NZGCA registered Gypsy Cob parents been PSSM1 and FIS tested?			Test your horse for PSSM1 and FIS through InfogeneNZ/Massey University OR test your horse's NZGCA registered Sire and Dam.
Have you taken photos of your horse that meet the registration photo criteria?			Please take photos that meet the registration photo requirements.
If you have answered YES to all the questions your horse is ready to be registered. Please apply via the NZGCA website.		If you have answered NO to any of the questions you must address the issue before proceeding. Your horse cannot be registered until you can answer yes to all questions.
