

Can my IMPORTED Purebred Gypsy Cob be registered with the New Zealand Gypsy Cob Association?

Complete the following ...

Please tick:	Yes	No	If you ticked no, then ...
Are both parents of your horse registered with an NZGCA-approved Gypsy Cob/Vanner Association in their country of origin?			Until both parents of your horse are registered in their country of origin you cannot register your horse with NZGCA. Please discuss this with the owner of the dam and sire of your horse.
Have you DNA verified your horse to both of its registered Gypsy Cob parents?			Complete DNA verification process to have your horse parentage verified to its registered sire and dam.
Is your horse registered with an NZGCA-approved Gypsy Cob/Vanner breed association in their country of origin?			Register your horse with a recognised Gypsy Cob/Vanner breed association in its country of origin.
Has your horse been tested for PSSM1 and FIS?			Have your horse tested for PSSM1 and FIS through InfogeneNZ/Massey University.
Have you taken photos of your horse that meet the registration photo criteria?			Take photos that meet the registration photo requirements.
If you have answered YES to all the questions your horse is ready to be registered. Please apply via the NZGCA website.		If you have answered NO to any of the questions you must address the issue before proceeding. Your horse cannot be registered until you can answer yes to all questions.
